

## Switching Guide

i

x

Swipe to Select the Patient's Current Anticoagulant:

Rivaroxaban or  
Apixaban

Switching from rivaroxaban or  
apixaban to Pradaxa

Last dose of  
previous  
anticoagulant

Initiate Pradaxa when  
the next dose of  
anticoagulant is due.

In patients with impaired renal function  
or those taking a reduced dose of  
rivaroxaban or apixaban, a longer time  
interval between cessation and initiating  
Pradaxa may be needed.
